

# New Emergency Pavilion

A NEW VISION TO SERVE OUR GROWING COMMUNITY...  
WHEN IT MATTERS MOST

## The Need

In an emergency, every second saves lives. As our region's population has grown and matured, so has the critical need for 24/7 emergency care. The need has resulted in dramatic growth in the number of people seeking treatment in Orange Coast Memorial's Emergency Department.

- Emergency Department visits have grown by more than 22 percent in the past five years
- Today our Emergency Department treats more than 29,000 patients each year
- Paramedics must increasingly bypass our Emergency Department because it is full
- Across the nation, 25% of emergency departments have closed over the past 20 years.\*
- Health care reform will expand insurance coverage and increase emergency department visits

To continue providing advanced, life-saving care to those who need it most – when they need it most – Orange Coast Memorial, in partnership with our community, is investing in a major Emergency Department expansion.
